### 3. Destination Location

### 4. Finish Driver Installation

## 4. Mantra MDS L0 Service Installation.

### 1. Start installation:

- Right click on setup file and select “Run as administrator”.
- **Note: To install Mantra MDS L0 Device, setup needs administrator privileges.**

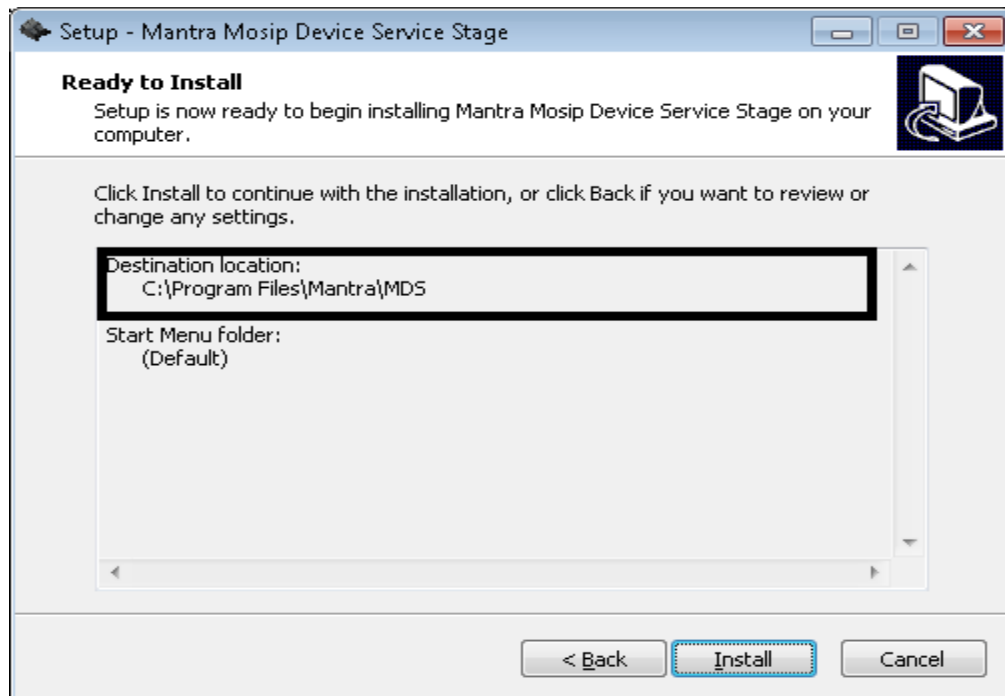

### 2. Welcome Wizard:

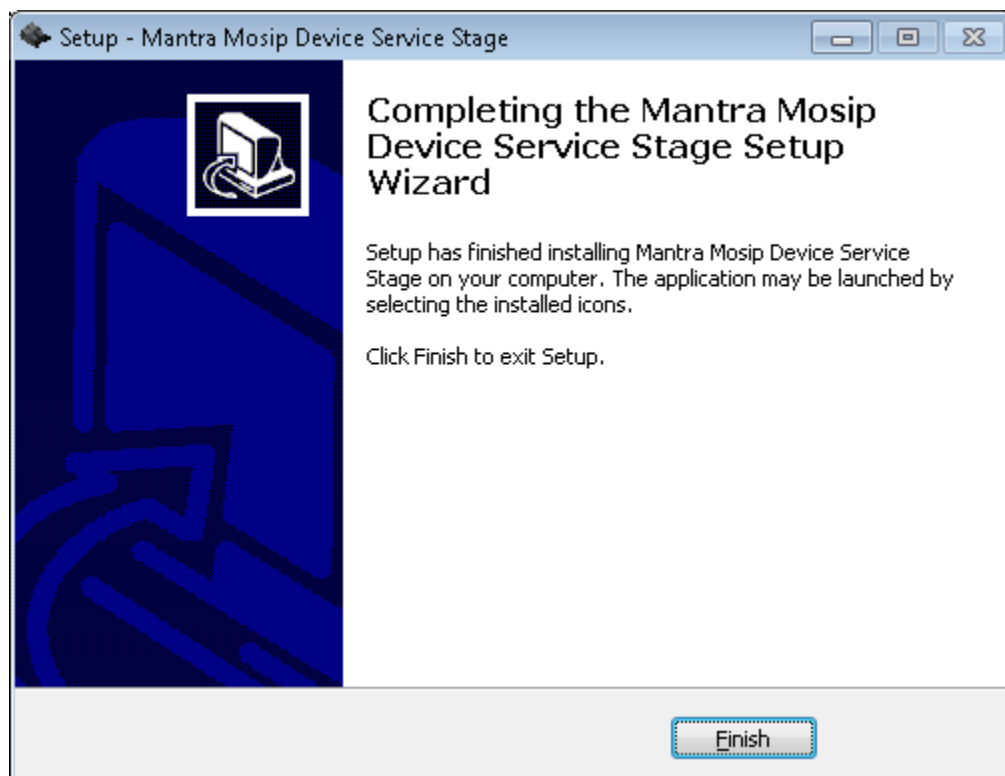

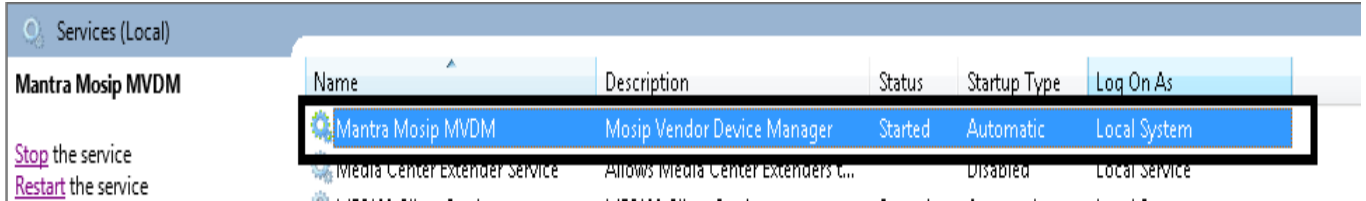

### 3. Destination Location:

### 4. Finish RD Service Installation:

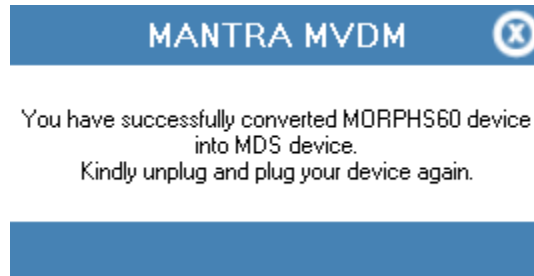

- After installation of MDS L0 Device Service, it can be found under Services form “Control Panel\All Control Panel Items\Administrative Tools”.

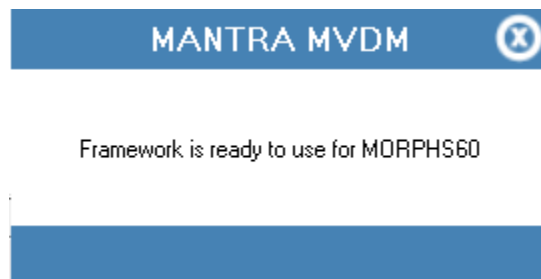

## 5. MDS L0 Registered Device Conversion

- MDS Registered Device Service will convert it into registered device and user will be notified again with success response by MDS.
- After that you need to unplug and plug your device.

- If your device is not listed at Mantra Management Server than user will be notified so in this case you need to contact with our Servico Team at <http://servico.mantratecapp.com> Or +91-79-49068000.
- Once registered MORPHS60 or MATISX device will be plugged to the system, RD service will detect it automatically and validate it on Mantra’s Management Server.
- Once validation competed then it will generate below popup for user information.

## **6. MDS Service Mosip Testing Kit Application**

<http://test.mosip.io/phase2/run>

Please check with Mosip Team for more details for testing.

## **7. Device Registration on Management Server**
